

2013 Golf R

0–60 mph in 5.6 seconds[†]

256-hp, 2.0L TSI[®] engine

6-speed manual transmission

4MOTION[®] all-wheel drive

Enhanced sport suspension

Black painted brake calipers

Bi-Xenon headlights with AFS

You
can't
fake

fast.

Let's cut to the chase: This 256-hp, 2.0L turbocharged engine puts the R in right foot.

Power

You won't find an oversized wing on the rear. Or flames on the side. That's not what the Golf R is about. It's about being fast. Real fast.* What started with our legendary Golf has only gotten better and, well, faster. Because we had our best engineers burn a little midnight oil, along with a lot of rubber, to make our limited-run sport hatch run even harder. And be the fastest U.S. production car we've ever built.** Guess we can all agree that the little R tells you everything you need to know. **That's the Power of German Engineering.**

2013 Golf R

*Always obey local speed and traffic laws. **Based on manufacturer's published data. [†]Track performance time.

Everything on your

list.

Think about your wish list for the perfect sport hatch. It would include an aggressive body kit. It would have track-ready 18-inch wheels wrapped in low-profile tires. And it would feature a shiny R badge and dual center exhaust in the back to give people behind you something to look at. Of course, it's not technically a wish list if all your wishes are granted.

Genuine VW accessories. The Golf R leaves the factory ready to hit the road, and pretty much own it too. But nothing should stop you from making your ride more ownable. Especially with such accessories as blacked-out wheels, side window deflectors, or customized MojoMat® floor mats. Because going fast never goes out of style.*

Standard features:

- R badging
- R body kit
- Unique 18-inch wheels
- Dual center exhaust
- Piano black exterior mirrors
- Rear hatch spoiler

2013 Golf R

*Always obey local speed and traffic laws.

Expect the best.

There's only one thing better than looking under the hood of this beast. That's sitting in the driver's seat. If you can take your hand off the shifter for a second, you'll find available touchscreen navigation to help you locate the nearest long straightaway. Plus, an available 9-speaker Dynaudio® premium sound system to play some serious driving music. And R-badged top sport seats with leather seating surfaces that hug you as tightly as your Golf R hugs the asphalt.

Interior

- Blue instrument panel needles
- Keyless access with push-button start*
- Top sport seats with leather seating surfaces
- R-badged headrests
- Dual-zone automatic climate control
- Sport pedals

*Feature available on some models.

Three years or 26,729 green lights.

Changing your oil, rotating your tires, topping off the windshield wiper fluid—do you remember to do all that stuff? Your car does. Right there in your instrument panel. Both it and your dealer will let you know when it's time to schedule your appointment. And for three years, or 36,000 miles, we've got you covered. That's why we call it carefree. Come by for a courtesy vehicle check within the first 90 days, or 6,000 miles, and ask us any questions you have while we give your Golf R a basic checkup. Then, come by every year, or 10,000 miles, for your remaining scheduled maintenance checks. It's that simple.

Think Blue.®

Think Blue is the Volkswagen way to drive progress by creating and producing cars that are more efficient†, eco-conscious, and fun to drive. The Volkswagen line features a variety of BlueMotion® technologies—from TDI® engines to precision fuel injection—designed to make our vehicles as blue as possible. Which is likely to make other car companies green with envy. Learn how we think beyond green at vw.com/thinkblue.

Volkswagen DVD Navigation depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations, and other points of interest. Changes in street names, construction zones, traffic flow, points of interest, and other road system changes are beyond the control of Volkswagen of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested navigation route. Periodically, the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. For further information regarding any Volkswagen model, please call 1-800-DRIVE-VW, or just look us up at vw.com.
